Gurugram School kicks off 6th National Convention on Students Quality Circle 2018

THIS WEEK INDIA

Gurugram, November 24, 2018: Suncity School in association with Quality Circle Forum of India (QCFI) - Delhi chapter has kick started the 6th National Convention on Students Quality Control Circles (NCSQCC) today at its premises. The theme for this year's convention is "Quantum Quality." The Chief Guest for the inauguration day was Mr. Rahul Bose, the famous Actor, Director and Screenwriter, Dr. Jagdish Gandhi-Chairman, World Council for Total Quality and Excellence in Education and Mr. Madhukar Narain-Chairman, Mauritius Students Quality Control Circles.

Over 400 students from 27 renowned schools from across the country such as City Montessori School- Lucknow, Strawberry Fields- Chandigarh, Marias School- Guwahati, etc are participating in this event. This two day annual convention is an amalgamation of eight events namely 'Case Study Presentation', 'Verbosity- Mingle with Jingle', 'Debate', 'Paper Presentation', 'Poster & Slogan', 'Origami installation', 'Quality Quiz', and 'Against all odds'.

Mr. Rahul Bose exhorted the students to have faith in themselves and to listen to their own gut feeling to overcome the obstacles. He shared three incidents (one from his acting career another about when he had started playing rugby) in his life where he faced rejection/ challenges and how these taught him valuable life lessons. He also spoke about how difficult times can teach you to rise above criticism and negativity. The convention strongly underlines the need to empower the students so that they can find solutions to their problems develop analytical skills and foster teamwork in the same manner the industry does to problem solving using statistical quality control circles (QCC).

Speaking on the occasion, Mrs. Rupa Chakravarty, Principal, Suncity School said, "We are privileged to be hosting this National Convention of Students' Quality Control Circles that provides a perfect platform for the like-minded education fraternity to improve quality in education. Suncity's significant journey with SQCC started in 2010. SQCC helps in problem solving by collating and analysing data to help identify causes, understand process, generates ideas for KAIZEN- continuous improvement. This event will positively empower everyone by providing opportunities to learn from each other's perspectives and experiences that will come to the forefront with an array of specially designed events based on multiple intelligences"

"Events like NCSQCC enhance our research skill. These days there are a lot of news on social media, which makes it difficult for us to differentiate between fake news and real news. In such situation research helps us in understanding the depth of any topic," said Sivant Dosaj, Class 12, Suncity School.

The concept of Quality Circles initially originated in Japan. A quality circle is a participatory management technique that enlists the help of employees in solving problems related to their own jobs. Circles are formed of employees working together in an operation who meet at intervals to discuss problems of quality and to devise solutions for improvements. The concept has rapidly moved from manufacturing to services and now to educational institutions.

The essence of Quality Control Circle for students is to nurture them and build up the sense and importance of 'Quality' and of skillful execution in their life through Students Quality control Circles (SQCC). It is a tool used in the industry over the world to solve problems using data. The idea is to 'Catch them young', in their impressionable age by using the format of Quality Circle under the win-win ambience.

The Students Quality Circles and various Conventions on quality held in India and abroad, serve as a wonderful platform to address the aforementioned objectives and provide ample opportunities to develop and harness their latent potentials.

SIDDHARTH BASU CONDUCTS SUNCITY QUALITY QUIZ AT 6TH NCSQCC 2018

Posted by: Team | NewsPatrolling | November 26, 2018 | in PR

Ø **Sugata Mitra, Education innovator and famous Ted speaker addressed the gathering and shared valuable suggestions on quality education.**

Ø **Raman Munjal Vidya Mandir clinched the 'Best Team' trophy**

Ø **Suncity school bagged the runners-up trophy**

Gurugram: The most anticipated event of the year “**6th National Convention on Students Quality Control Circle (NCSQCC)**” concluded amidst enthusiasm at Suncity School on November 24, 2018. The key dignitaries on the occasion were **Mr. Sugata Mitra** as Chief Guest (Education Researcher and the famous Ted Talk speaker) and **Mr. Siddharth Basu** (Indian television producer-director and quiz show host, widely regarded as the “Father of Indian television quizzing”).

The two days extravaganza hosted 8 events in which 400 students from schools across the country like City Montessori School- Lucknow, Strawberry Fields- Chandigarh, Blue Bells School, Gurgaon etc showcased their problem solving abilities, analysing and researching skills. The delegates also presented their research papers in the convention.

An elated **Mrs. Rupa Chakravarty, Principal, Suncity School** said “Quality is not an act but a habit. And we have imbibed that in our students by constantly walking the talk and showing them through role models what is quality. If we want them to have quality then we have to show them quality. This convention was a good platform to showcase that what quality means and help them benchmark themselves.”

Mrs. Vineeta Kamran, Principal and Executive Director, World Council for Total Quality and Excellence in Education (WCTQEE) said, "I knew the convention is going to be good but that good it surpassed City Montessori, Lucknow; I never imagined. Everything went so smoothly in each event but what impressed me the most is the time management. This is the one of the best conferences I've been to and the only one to become international due to the participation from Mauritius. Suncity has set a benchmark for us."

Highlight of the event was the finale of Suncity Quality quiz conducted by Mr. Siddharth Basu. The grand finale and the prize distribution ceremony were also held. Ms. Vineeta Kamran, Principal and Executive Director, World Council for Total Quality and Excellence in Education (WCTQEE) and Mr. Sugata Mitra, Education Innovator & renowned TED Speaker presented the awards to the winners of the convention. Students of Suncity School also presented an aerial act as a part of the cultural evening for the guests.

Mr. Sugata Mitra gave the key note address in the convention. He spoke about his experiment 'Hole in the wall'. Speaking about the event, he said "It was a very impressive event, and it was really hard to believe that it was managed by the students and the faculty not a professional agency. Suncity is shaping these young minds in a very powerful and responsible manner, I am glad that I could witness these abilities of the students who participated in this convention. I wish them success in their life"

The Best team trophy of the convention was clinched by Raman Munjal Vidya Mandir and the runners-up trophy was bagged by Suncity School.

The event concluded with a note of gratitude by the Principal, followed by the National Anthem.

The purpose of Students' Quality Control Circle is to nurture them and build up the sense and importance of 'Quality' and of skillful execution in their life through Students Quality control Circles (SQCC). It helps them find solutions to their problems, develop analytical skills and foster teamwork in the same manner the industry does to problem solving using statistical quality control circles (QCC).

Gurugram School kicks off 6th National Convention on Students Quality Circle 2018

Gurugram: Suncity School in association with Quality Circle Forum of India (QCFI) – Delhi chapter has kick started the 6th National Convention on Students Quality Control Circles (NCSQCC) today at its premises. The theme for this year’s convention is “Quantum Quality.” The Chief Guest for the inauguration day was Mr. Rahul Bose, the famous Actor, Director and Screenwriter, Dr. Jagdish Gandhi– Chairman, World Council for Total Quality and Excellence in Education and Mr. Madhukar Narain–Chairman, Mauritius Students Quality Control Circles.

Over 400 students from 27 renowned schools from across the country such as City Montessori School– Lucknow, Strawberry Fields– Chandigarh, Marias School– Guwahati, etc are participating in this event. This two day annual convention is an amalgamation of eight events namely ‘Case Study Presentation’, ‘Verbosity– Mingle with Jingle’, ‘Debate’, ‘Paper Presentation’, ‘Poster & Slogan’, ‘Origami installation’, ‘Quality Quiz’, and ‘Against all odds’.

Mr. Rahul Bose exhorted the students to have faith in themselves and to listen to their own gut feeling to overcome the obstacles. He shared three incidents (one from his acting career another about when he had started playing rugby) in his life where he faced rejection/ challenges and how these taught him valuable life lessons. He also spoke about how difficult times can teach you to rise above criticism and negativity.

The convention strongly underlines the need to empower the students so that they can find solutions to their problems develop analytical skills and foster teamwork in the same manner the industry does to problem solving using statistical quality control circles (QCC). Speaking on the occasion, Mrs. Rupa Chakravarty, Principal, Suncity School said, “We are privileged to be hosting this National Convention of Students’ Quality Control Circles that provides a perfect platform for the like–minded education fraternity to improve quality in education. Suncity’s significant journey with SQCC started in 2010. SQCC helps in problem solving by collating and analysing data to help identify causes, understand process, generates ideas for KAIZEN– continuous improvement. This event will positively empower everyone by providing opportunities to learn from each other’s perspectives and experiences that will come to the forefront with an array of specially designed events based on multiple intelligences”

“Events like NCSQCC enhance our research skill. These days there are a lot of news on social media, which makes it difficult for us to differentiate between fake news and real news. In such situation research helps us in understanding the depth of any topic,” said Sivant Dosaj, Class 12, Suncity School.

The concept of Quality Circles initially originated in Japan. A quality circle is a participatory management technique that enlists the help of employees in solving problems related to their own jobs. Circles are formed of employees working together in an operation who meet at intervals to discuss problems of quality and to devise solutions for improvements. The concept has rapidly moved from manufacturing to services and now to educational institutions.

The essence of Quality Control Circle for students is to nurture them and build up the sense and importance of ‘Quality’ and of skillful execution in their life through Students Quality control Circles (SQCC). It is a tool used in the industry over the world to solve problems using data. The idea is to ‘Catch them young’, in their impressionable age by using the format of Quality Circle under the win-win ambience.

The Students Quality Circles and various Conventions on quality held in India and abroad, serve as a wonderful platform to address the aforementioned objectives and provide ample opportunities to develop and harness their latent potentials.
