MY CONVERSATION WITH MY GRANDPA

I was talking to my grandfather;
 How things used to be?
 Without any TV, mobile phones
 and iPads,
 What he used to do when free?
 He said, technology has indeed
 changed,
 Our lives for good,
 Now he can talk to my uncle,
 As soon as he could.
 Everything what is happening
 around the world,
 Is at the tip of his hand
 With fast moving trains
 and airplanes,
 He can reach in India or
 any foreign land.
 But, he warned us to be careful,
 Too much technology can
 make our lives dull.
 We should go down and play,
 With friends who have lots to say.
 Instead of Facebook,
 We should have friends and
 family to look.
 So dear friends, excess of
 everything is bad,
 Be it TV, mobile phone or iPad!
