Gurgaon: When Palakshi Sehrawat was four years old, her father Sandeep would often take her to the golf course. It didn't take long for this girl to fall in love with the game. Now, she is the only golfer from the city selected to represent the country at the US Kids European Championship, to be held in Scotland from May 29 to 31. Palakshi will compete in the under-12 category, the only Indian to be entered in this age group. "Palakshi won her age group in the Paris Junior Cup, that's why she is participating in this tournament," said Drew Felton, a US Kids Golf Foundation official.

Golf, confesses Palakshi, is her passion. "I left no stone unturned and thoroughly prepared for the tournament. I was confident of achieving success this time, (and) this victory has further boosted my confidence," said this class-VI student of Suncity School, adding, "I am thankful to my parents and school for their wonderful support."

Palakshi recently bagged a gold medal at the 52nd Lufthansa Junior Golf Tour event, played at the city's DLF Golf and Country Club (another Gurgaon girl, Prarthana Khanna, finished runner up). The tournament saw around 70 players from across the country take part.

Rupa Chakravarty, principal at Suncity School, spoke proudly of Palakshi's "wonderful" ability to balance academics with her passion. Indeed, Palakshi doesn't find it at all difficult to juggle education and golf. She follows a strict fitness regime and takes care of her diet. For four days every week, at Delhi's Qutab Golf Course, the youngster trains dedicatedly and rigorously.

"Palakshi has made not only me but the entire country proud. She is very hard-working and adheres to her basics. However, there is still a lot of scope for improvement and we are working on her weaknesses together," said Harish Singh, Palakshi's coach.

Just 10 years old, Palakshi already has several accolades to her credit, having earlier won the 51st Lufthansa Junior Golf Tour event, the Salwan Cup School Golf Championship, and Ace Junior Golf tournament.

Palakshi Sehrawat selected for US Kids European Championship

Palakshi Sehrawat is among a group of around twenty young golfers to qualify for the US Kids European Championship

By Anand Datla May 13, 2018

Home » Palakshi Sehrawat Selected For US Kids European Championship

13 May, 2018: Sometimes dreams come true for those willing to believe and work hard. Palakshi Sehrawat will have her chance to realise some dreams when she travels to Europe this month with a contingent of around 20 young golfers. The youngster is all set to represent India in the US Kids European Championship. The event will be held in Scotland at the end of this month – 29, 30 & 31 May.

Palakshi was just four when her father Sandeep drew her along to a golf course. The toddler was immediately in love with the game and its surroundings.

The Gurgaon girl is set to take part in this well regarded junior competition among an eager collection Indian participants. Palakshi will play in the under-12 category.

“Palakshi won her age group in the Paris Junior Cup, that’s why she is participating in this tournament,” said Drew Felton, a US Kids Golf Foundation official.

Palakshi has been in good form recently. She won gold at the 52nd Lufthansa Junior Golf Tour event. The event featured 90 of the best junior girls testing their skills at the DLF Golf & Country Club.

“I left no stone unturned and thoroughly prepared for the tournament. I was confident of achieving success this time, (and) this victory has further boosted my confidence,” explained the class-VI student of Suncity School. “I am thankful to my parents and school for their wonderful support.”

The school has been very supportive of Palakshi’s pursuit of the game. The girl too seems to have also worked hard to earn the trust and support of the school.

The young girl already has a well defined schedule of golf, fitness and a structured diet program. All of that help Palakshi make the best of her talent when she plays in an event. Palakshi is at the Qutab Golf Course at least four days a week honing her approach and skills.

“Palakshi has made not only me but the entire country proud. She is very hard-working and adheres to her basics,” said her coach Harish Singh. “However, there is still a lot of scope for improvement and we are working on her weaknesses together,”

Palakshi seems to hold plenty of promise for Indian golf in the years to come. At the moment though, the 10 year old champion golfer can make the most of her opportunities to shape her promising career.
